St. Anthony School of Echocardiography
Admission Procedure

- Complete the online application
- Submit official, sealed transcripts demonstrating the completion of the prerequisites. All prerequisites must have been completed with a ‘C’ or above. If the applicant is currently enrolled in a prerequisite class or is scheduled to take it the next semester, submit evidence of this.
- If the applicant has completed a post-secondary program (certificate, diploma, Associates Degree, etc.), submit official evidence of the final GPA
- Applicants that have not completed a post-secondary program must submit official, sealed high school transcripts.
- Applicants are to write an entrance essay addressing the following:
  o How and why did you become interested in the field of Echocardiography?
  o What are your career objectives within this field?
  o What additional coursework do you have in progress or planned?
  o Describe any observational or training experience(s) you have had in this career field.
    □ Tell us what procedures you observed and what you learned about the career from this experience.
  o Describe any personal qualities and/or experiences that make you a competitive candidate for this school.
  o How and why has your previous education and/or training prepared you for this career choice.
- Applicants are scored on their prerequisite grades, prior job experience, essay, and the GPA of their last completed program.
- The top 15-20 applicants are interviewed.
- The interview score is added to previous score.
- St. Anthony School of Echocardiography will invite up to 12 of the top scorers to enroll in the program.
- If any of these applicants are still completing prerequisite classes, their acceptance into the program will be provisional upon proof of completion of those classes with a ‘C’ or better.
- Several alternates will also be chosen.

Admission scoring system

- 30% educational background
- 10% goal statement essay
- 10% GPA of last completed program
- 20% job experience
- 30% faculty interview
